

Vin Deca - Monster

It is a new ideo-centric
In fact, Rated-X-graphic
And I hear
They'll be bringing it into class
They'll be bringing it into class

They selling it as equality
But it is family apostasy
And I hear
They'll be bringing it into class
They'll be bringing it into class

No one seems to know
Until the dirty show
So terrifying
No one'll pick the fight
They're turning back to front
And front to back
No one has to know
Coz everyone will say no
So they confuse
And the defuse
They're turning back to front

This is how you make a monster
You're making a monster
A Monster
You're making a monster
This is how you create a monster
A Monster
You're making a monster
A Monster

Fair game girl and boy you proclaim
Then better teach respect if that's the aim
But
You will certainly loose the game
You will certainly loose the game
But don't tell me I made it up
Because you're just dying to break it up
One sees trees
One sees the forest
It what makes us so invincible
